

Delaware 2021 Year in Review

SB33 – RPS

- Updated and extended RPS requirement through 2035
- Cleaned up other provisions, most importantly process for automatic modifications to the RPS

SB2 – Community Solar

- Signed by Gov on 9/17/21; regs now being written
- Key provisions: aggregated net metering at retail kWh rate; size cap 4 MW; customers of same utility; flexible ownership

SREC Procurement Program reform

- Working group underway, targeting next year's procurement for implementation
- Simplification of program tiers
- Residential SREC procurement incorporated into upfront rebate
- Probably two other tiers for forward purchasing contracts, possible creation of a DE spot market

SB33 - Growth in RPS by Year
(2035 Tier 1 40%, Solar 10%)
